PROGRAM DESCRIPTION

The workshop is designed to provide fundamental knowledge of clinical techniques used in the identification and management of structural pathologies of the cervical region, thoracic spine, ribs, lumbar spine, pelvic girdle and sacrum. The program includes didactic classroom work that is integrated with extensive “hands-on” experiences. The focus of the educational sessions is on the application of clinical techniques to be used in the athletic training room for the identification and management of structural pathology of the spine and pelvic girdle. The objectives of the course are:

1. To describe the principles and techniques for the structural evaluation of the spine for practicing athletic trainers.
2. To learn and practice the principles and techniques of layer palpation, segmental vertebral motion and vertebral dysfunction.
3. To learn and practice the principles of musculoskeletal screening for structural pathologies in the thoracic spine, lumbar spine and pelvic girdle.
4. To learn and practice muscle energy techniques to correct structural dysfunctions of the thoracic spine, lumbar spine and pelvic girdle.

Text Books:

Suggested—DeStefano L. *Greenman's Principles of Manual Medicine*. 4rd Edition.: Wolters Kluwer/Lippincott, Williams & Wilkins; 2011.

FACULTY

Dave Carrier, MA, AT, ATC – Adjunct Faculty, Department of Kinesiology, Assoc. Head Trainer, Spartan Ice Hockey.

Katie Donahue, DO - Assistant Professor, Department of Osteopathic Manipulative Medicine, MSU College of Osteopathic Medicine.

Jennifer Gilmore, DO – Assistant Professor - Department of Osteopathic Manipulative Medicine , MSU College of Osteopathic Medicine .

Sally Nogle, PhD, AT, ATC – Adjunct Faculty, Department of Kinesiology, Head Athletic Trainer, Spartan Football.

John Powell, PhD, AT, ATC – Professor Emeritus, Retired

Limited Spaces Available, So Register Today!

Tuition: \$450

Lunch and snacks included.

Does not include hotel accommodations

Conference Registration deadline is May 1, 2018
